## Gelato & Ice Cream

### Showcase Assembly Instructions

Tech Support 1.800.672.2784 x 212

1) Open box lid

2) Remove wood slats

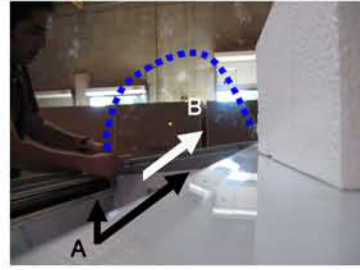

3) Remove styro packing blocks

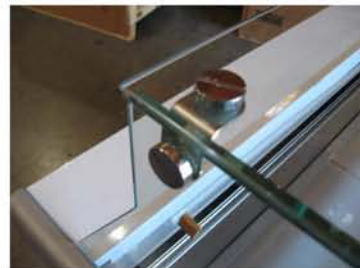

4) Close top and pull crate cover up and off

5) Soft Hardware  
 a) 2 "L" Brackets  
 b) 4 Male Chrome Screws  
 c) 4 Female Chrome Nuts  
 d) 4 Longer Side Glass Base Screws  
 e) 2 Pair Nut & Screw For Pivoting Back Door

6) Erect Side Glass  
 a) Affix each side with the longer length chrome screws at the base of the inside, through the glass, into the threaded holes in the case. Glass curve is oriented to the front side of the case with the large louvers at the bottom  
 b) Install remaining nut & screw in holes on each side for pivoting rear door

7) Install "L" brackets onto the two installed side glass units

8) Set lower edge of curve

9) Set curved glass into the front-edge and rotate the top-glass back and onto the "L" brackets, securing the glass

10) Clean glass and install rotating back service door hinge slots onto chrome pivots inside glass (not shown)

11) Start making product to put into the case! (Pineapple flavor is considered especially good to start with)
